

## NEWS RELEASE

August 11, 2010

TCB-406 Tait Packages sent to Iowa as emergency response to severe flooding.

Twelve TCB-406 Tait Packages sent to help emergency responders with the Iowa State flooding. Small, portable, and powerful; the TCB-406 is always ready for rapid deployment. The TCB-406 provides seamless interoperability for up to five independent radios or communications devices, including cell phones, IP phones, land lines, and nearly any two-way radio. Enhanced functionality is only part of the TCB-406. By design, the unit is also extremely rugged and highly portable. The TCB-406 is housed in a 1440 Pelican™ case protecting it from EXTREME WEATHER CONDITIONS and is FULLY WATERPROOF by closing the lid. Ideal for Iowa's devastating emergency situation.

For more information and specifications on the TCB-406 check out:
